HOW TO STOP A PUPPY FROM MOUTHING & BITING

Respond to a bite with a firm 'NO'

Then, stop playing or socializing with your puppy for a short period of time in order to reinforce to the puppy that the bite was not good.

After a bit of repetition with this technique, your puppy will realize that biting you will harm his social life.

Alternatively, you can keep a bottle of water nearby with a spray nozzle, and spray your dog with water any time he starts biting you. Accompany with a firm 'NO'.

Make sure you respond with a 'NO' instantly so that the puppy does not confuse your feedback for something else. It takes only a few seconds for the puppy's mind to wander.
